

How can we help Queenslanders keep up with the increasing demand for digital skills in the workforce?

Digital technology has changed almost every aspect of daily life in households, businesses, industries and governments, bringing opportunities and challenges for each. Here in Queensland, we want to make sure we embrace the opportunities of this digital transformation and position Queensland with a strong and diverse digital economy.

It is estimated that Queensland will need an additional 10,000 digital professionals by 2024.

How can we help develop Queensland's digital workforce?

What can we do to skill, reskill and upskill employees in all areas of Queensland?

Are there technologies that could help?

How to prepare your solution:

1. Think about the challenge questions and additional information.
2. Search for data to use. Your solution must use at least one dataset from data.qld.gov.au, however, you can also include data from other sources.
3. Develop a unique, creative solution to the challenge questions. Check out [last year's winners](#) for some examples.
4. [Prepare your 3-minute video](#) based on GovHack's guidelines.
5. [Submit your solution](#), including the video, and a minimum viable product via the Hackerspace.
6. Get ready for the awards night!
